JAPANESE JOURNAL OF OPHTHALMOLOGY

VOLUME 20, 1976

Contents

Professor Hiroshi Ikui, curriculum vitae and selected bibliography..... 1
Effect of electronic strobe flashlight on the monkey retina.....*Toichiro Kuwabara & Shigekuni Okisaka*... 9
Ultrastructure of newly formed blood vessels in diabetic retinopathy .....*Yoshiaki Taniguchi*... 19
Immunosuppressive treatment of Behçet's disease with cyclophosphamide.....*Shinobu Oniki, Ken-ichi Kurakazu & Kaori Kawata*... 32
Ocular Arthus reaction with reference to immunologic retinal vasculitis: Its possible relation to Behçet's disease.....*Shinobu Oniki, Yasuhiko Inoue & Kaori Kawata*... 41
Familial primary amyloidosis: Light and electron microscopic histopathology of the eye.....*Hajime Inomata, Masahiro Okayama & Kenji Oshima*... 51
Fine structure of subretinal fibrous tissue in Coats' disease.....*Toyoko Ishikawa*... 63
Ultrastructure of degenerating astrocytes in the human retina.....*Shigekazu Uga, Hiroshi Ikui & Yasuo Yamana*... 75
Electron microscopic studies on retinal dysplasia.....*Yoshitaka Ohnishi, Kazuyuki Ohshio & Tetsuo Arakawa*... 85
Electron microscopic studies on retinal repair in moneky after xenon photocoagulation. II. Cellular responses in the late stage of repair.....*Yujiro Ishikawa*... 98
Eosinophilic granuloma of the orbit: Report of a case and some ultrastructural findings of histiocytes in the lesion .....*Sakae Momoeda & Yujiro Ishikawa*...119
Oligodendrocyte and myelinated nerve fibers in the human retina: An electron microscopic study.....*Toshihiko Kohno & Shigekazu Uga*...125
Effects of oxygen on developing vessels in the kitten retina.....*Kenji Oshima & Toyoko Ishikawa*...135
Responses of Müller cells of rabbit retina in experimental siderosis.....*Jin Hyung Yoo*...149
Unusual intercellular dense materials in the non-tumorous parts of the retina with retinobiastoma.....*Fuminori Nakao, Jin Hyung Yoo & Shigekazu Uga*...159

Histopathological study on the overacted inferior oblique muscles with special reference to "Central core" within the muscle fibers.....*Kazuo Mukuno, Satoshi Ishikawa, Toshihito Togo & Yumiko Minei*...166

Effects of long-term use of antipsychotic drugs on the pupil responses in schizophreniacs.....*Shinji Oono & Satoshi Ishikawa*...177

Electron microscopic study of subsurface cisterns in the retinal ganglion cells .....*Tsunetami Nomura*...186

Effects of chlorfenvinphos, an organophosphate insecticide, on afferent transmission in the central visual system.....*Yukinobu Takeda, Isamu Tsukahara & Shuji Takaori*...195

Studies on the influence of corticosteroids on the carbohydrate metabolism of calf and bovine lenses in vitro.....*Inge Korte, O. Hockwin, H. Fischer, H. Klemm & U. Kraft*...204

Standard patterns of impedance cyclogram in normal Ghanaians .....*Akio Hosaka, Hiroto Yamada & C.O. Quarcoopome*...212

Encircling silastic 3 mm band without evacuation of subretinal fluid in recurrent retinal detachment.....*Aly Mortada*...221

Aiming at prevention of complications of scleral buckling by silastic rod or band without evacuation of subretinal fluid.....*Aly Mortada*...228

Ultrastructure of vessels in haemorrhagic area of human retina.....*Hiroshi Yoshimoto*...233

Ultrastructural study on the regeneration of the corneal endothelial cells.....*Gilles Renard, Michel Hirsch, Jean-Pierre Faure, Masahiko Usui & Yves Pouliquen*...243

Acute posterior multifocal placoid pigment epitheliopathy.....*Yoichi Takei & Katsuyoshi Mizuno*...257

Retinoblastoma in Japan: Follow-up survey of sporadic cases.....*Ei Matsunaga & Hiroichi Ogyu*...266

Studies of tear flow using sodium pertechnetate TC 99M.....*Yasuichi Murai*...283

Retinal detachment.....*Charles L. Schepens*...291

Angio-architecture of the choroid.....*Toshihiko Matsusaka*...330

Photostimulator for local VER.....*Tatsuo Hirose & Elizabeth Larson*...347

Influence of defective circulation of the posterior ciliary arteries on acid hydrolases in the choroid and the retina.....*Satoshi Hara, Seiji Hayasaka, Tadasu Kikuchi & Katsuyoshi Mizuno*...353

Modification for Harm's trabeculotomy if canal of Schlemm is not found in buphthalmos .....*Aly Mortada*...361

Familial simple colobomata of the four lids.....*Tetsuo Hida & Yasuo Uemura*...365

Management of the retinopathy of prematurity.....*Misao Yamamoto & Akio Tabuchi*...372
Treatment of retinopathy of prematurity in active stage by cryocautery.....*Kazuyuki Sasaki, Yukiko Yamashita, Toyoko Maekawa & Toshio Adachi*...384
Late Professor Hogara Hagiwara, the founder of Japanese Journal of Ophthalmology..... i
Aldose reductase in diabetes.....*J.H. Kinoshita, S.D. Varma & H.N. Fukui*...399
Visual and vestibular inputs onto neurons in superior colliculus of the cat .....*Manabu Kase*...411
Studies on the early receptor potential in the human eye.
V. ERP in various types of uveitis.....*Akihiko Tamai*...420
The effect of miconazole on experimental candida keratitis.....*Shigeaki Ohno, Masao Okumoto, Jacinto Dy-Liacco & Gilbert Smolin*...438
Stereoprojector examination of binocular vision.....*R. Pigassou-Albouy*...444
The reaction of lens proteins and amino acid with 1,4-benzoquinone.....*Fumihiko Ikemoto & Robert C. Augusteyn*...457
A case of progressive supranuclear palsy: Electrophysiological analysis of the abnormal oculomotor function.....*Manabu Kase, Tateo Warabi & Kunio Tashiro*...466
Studies on pigmentary retinal dystrophy. I. Age of onset of subjective symptom and the mode of inheritance.....*Tsuyoshi Tanino & Norio Ohba*...474
Studies on pigmentary retinal dystrophy. II. Recordability of electroretinogram and the mode of inheritance.....*Tsuyoshi Tanino & Norio Ohba*...482
Acetylcholinesterase in the outer plexiform layer of the retina —A histochemical study—.....*Mikio Miyata & Satoshi Ishikawa*...487
Ultrastructural aspects of hyperpermeability of the retinal blood vessels of spontaneously hypertensive rats.....*Hiroshi Yoshimoto & Mikio Murata*...497
Topical indomethacin in soft cataract aspiration.....*Mitsuru Sawa & Kanjiro Masuda*...514

Subject Index of Volume 20

Accommodation	Standard patterns of impedance cyclogram in normal Ghanaians (*Hosaka et al.*)	212
Anomaly	Familial simple colobomata of the four lids (*Hida et al.*)	365
Behçet's disease	Immunosuppressive treatment of Behçet's disease with cyclophosphamide (*Oniki et al.*)	32
	Ocular Arthus reaction with reference to immunologic retinal vasculitis: Its possible relation to Behçet's disease (*Oniki et al.*)	41
Biochemistry	Studies on the influence of corticosteroids on carbohydrate metabolism of calf and bovine lenses in vitro (*Korte et al.*)	204
	Influence of defective circulation of the posterior ciliary arteries on acid hydrolases in the choroid and the retina (*Hara et al.*)	353
	Aldose reductase in diabetes (*Kinoshita et al.*)	399
Choroid	Angio-architecture of the choroid (*Matsusaka*)	330
	Influence of defective circulation of the posterior ciliary arteries on acid hydrolases in the choroid and the retina (*Hara et al.*)	353
Ciliary body	Standard patterns of impedance cyclogram in normal Ghanaians (*Hosaka et al.*)	212
Circulation	Influence of defective circulation of the posterior ciliary arteries on acid hydrolases in the choroid and the retina (*Hara et al.*)	353
Coats' disease	Fine structure of subretinal fibrous tissue in Coats' disease (*Ishikawa*)	63
Cornea	Ultrastructural study on the regeneration of the corneal endothelial cells (*Renard et al.*)	243
Corticosteroids	Studies on the influence of corticosteroids on the carbohydrate metabolism of calf and bovine lenses in vitro (*Korte et al.*)	204
Crystalline Lens	Studies on the influence of corticosteroids on the carbohydrate metabolism of calf and bovine lenses in vitro (*Korte et al.*)	204
	The reaction of lens proteins and amino acid with 1,4-	

	benzoquinone (*Ikemoto et al.*)	457
	Topical indomethacin in soft cataract aspiration (*Sawa et al.*)	514
Diabetes mellitus	Ultrastructure of newly formed blood vessels in diabetic retnopathy (*Taniguchi*)	19
	Aldose reductase in diabetes (*Kinoshita et al.*)	399
Electrophysiology	Photostimulator for local VER (*Hirose et al.*)	347
	Studies on the early receptor potential in the human eye. V. ERP in various types of uveitis (*Tamai*)	474
	Studies on pigmentary retinal dystrophy. II. Recordability of electroretinogram and the mode of inheritance (*Tanino et al.*)	482
Extraocular muscle	Histopathological study on the overacted inferior oblique muscles with special reference to "Central core" within the muscle fibers (*Mukuno et al.*)	166
Eyelid	Familial simple colobomata of the four lids (*Hida et al.*)	365
Genetics	Retinoblastoma in Japan: follow-up survey of sporadic cases (*Matsunaga et al.*)	266
	Studies on pigmentary retinal dystrophy. I. Age of onset of subjective symptom and the mode of inheritance (*Tanino et al.*)	474
	Studies on pigmentary retinal dystrophy. II. Recordability of electroretinogram and the mode of inheritance (*Tanino et al.*)	482
Glaucoma	Modification for Harm's trabeculotomy if canal of Schlemm is not found in buphthalmos (*Mortada*)	361
Histochemistry	Acetylcholinesterase in the outer plexiform layer of the retina —A histochemical study— (*Miyata et al.*)	487
Immunology	Immunosuppressive treatment of Behçet's disease with cyclophosphamide (*Oniki et al.*)	32
	Ocular Arthus reaction with reference to immunologic retinal vasculitis: Its possible relation to Behçet's disease (*Oniki et al.*)	41
Indomethacin	Topical indomethacin in soft cataract aspiration (*Sawa et al.*)	514
Keratitis	The effect of miconazole on experimental candida keratitis (*Ohno et al.*)	438
Lacrimal Apparatus	Studies of tear flow using sodium pertechnetate TC 99M	

	(*Murai*)	283
Miscellaneous	Professor Hiroshi Ikui, curriculum vitae and selected bibliography	1
	Late Professor Hogara Hagiwara, the founder of Japanese Journal of Ophthalmology	i
Nasolacrimal Duct	Studies of tear flow using sodium pertechnetate TC 99M (*Murai*)	283
Neurophysiology	Effects of chlorfenvinphos, an organophosphate insecticide, on afferent transmission in the central visual system (*Takeda et al.*)	195
	Visual and vestibular inputs onto neurons in superior colliculus of the cat (*Kase*)	411
	A case of progressive supranuclear palsy: Electrophysiological analysis of the abnormal oculomotor function (*Kase et al.*)	466
Pigment epithelium	Acute posterior multifocal placoid pigment epitheliopathy (*Takei et al.*)	257
Pupil	Effects of long-term use of antipsychotic drugs on the pupil responses in schizophreniacs (*Oono et al.*)	177
Retina	Effect of electronic strobe flashlight on the monkey retina (*Kuwabara et al.*)	9
	Ultrastructure of newly formed blood vessels in diabetic retinopathy (*Taniguchi*)	19
	Ocular Arthus reaction with reference to immunologic retinal vasculitis: Its possible relation to Behçet's disease (*Oniki et al.*)	41
	Fine structure of subretinal fibrous tissue in Coats' disease (*Ishikawa*)	63
	Ultrastructure of degenerating astrocytes in the human retina (*Uga et al.*)	75
	Electron microscopic studies on retinal dysplasia (*Ohnishi et al.*)	85
	Electron microscopic studies on retinal repair in monkey after xenon photocoagulation. II. Cellular responses in the late stage of repair (*Ishikawa*)	98
	Oligodendrocyte and myelinated nerve fibers in the human	

retina: An electron microscopic study (*Kohno et al.*) 125
Effects of oxygen on developing vessels in the kitten retina (*Oshima et al.*) 135
Responses of Müller cells of rabbit retina in experimental siderosis (*Yoo*) 149
Unusual intercellular dense materials in the non-tumorous parts of the retina with retinoblastoma (*Nakao et al.*) 159
Histopathological study on the overacted inferior oblique muscles with special reference to "Central core" within the muscle fibers (*Mukuno et al.*) 166
Electron microscopic study of subsurface cisterns in the retinal ganglion cells (*Nomura*) 186
Ultrastructure of vessels in haemorrhagic area of human retina (*Yoshimoto*) 233
Ultrastructural study on the regeneration of the corneal endothelial cells (*Renard et al.*) 243
Acute posterior multifocal placoid pigment epitheliopathy (*Takei et al.*) 257
Retinal Detachment (*Schepens*) 291
Influence of defective circulation of the posterior ciliary arteries on acid hydrolases in the choroid and the retina (*Hara et al.*) 353
Management of the retinopathy of prematurity (*Yamamoto et al.*) 372
Treatment of retinopathy of prematurity in active stage by cryocautery (*Sasaki et al.*) 384
Studies on pigmentary retinal dystrophy. I. Age of onset of subjective symptom and the mode of inheritance (*Tanino et al.*) 474
Studies on pigmentary retinal dystrophy. II. Recordability of electroretinogram and the mode of inheritance (*Tanino et al.*) 482
Acetylcholinesterase in the outer plexiform layer of the retina —A histochemical study— (*Miyata et al.*) 487
Ultrastructural aspects of hyperpermeability of the retinal blood vessels of spontaneously hypertensive rats (*Yoshimoto*

	et al.)	497
Retrolental fibroplasia	Management of the retinopathy of prematurity (*Yamamoto et al.*)	372
	Treatment of retinopathy of prematurity in active stage by cryocautery (*Sasaki et al.*)	384
Siderosis	Responses of Müller cells of rabbit retina in experimental siderosis (*Yoo*)	149
Strabismus	Stereoprojector examination of binocular vision (*Pigassou-Albouy*)	444
Surgery	Encircling silastic 3 mm band without evacuation of subretinal fluid in recurrent retinal detachment (*Mortada*)	221
	Aiming at prevention of complications of scleral buckling by silastic rod or band without evacuation of subretinal fluid (*Mortada*)	228
	Retinal detachment (*Schepens*)	291
	Modification for Harm's trabeculotomy if canal of Schlemm is not found in buphthalmos (*Mortada*)	361
	Treatment of retinopathy of prematurity in active stage by cryocautery (*Sasaki et al.*)	384
	Topical indomethacin in soft cataract aspiration (*Sawa et al.*)	514
Toxicology	Effects of long-term use of antipsychotic drugs on the pupil responses in schizophreniacs (*Oono et al.*)	177
	Effects of chlorfenvinphos, an organophosphate insecticide, on afferent transmission in the central visual system (*Takeda et al.*)	195
Tumor	Eosinophilic granuloma of the orbit: Report of a case and some ultrastructural findings of histocytes in the lesion (*Momoeda et al.*)	119
	Unusual intercellular dense materials in the non-tumorous parts of the retina with retinoblastoma (*Nakao et al.*)	159
	Retinoblastoma in Japan: Follow-up survey of sporadic cases (*Matsunaga et al.*)	266
Ultrastructure	Effect of electronic strobe flashlight on the monkey retina (*Kuwabara et al.*)	9
	Ultrastructure of newly formed blood vessels in diabetic retinopathy (*Taniguchi*)	19

Familial primary amyloidosis: Light and electron microscopic histopathology of the eye (*Inomata et al.*) 51

Fine structure of subretinal fibrous tissue in Coats' disease (*Ishikawa*) 63

Ultrastructure of degenerating astrocytes in the human retina (*Uga et al.*) 75

Electron microscopic studies on retinal dysplasia (*Ohnishi et al.*) 85

Electron microscopic studies on retinal repair in monkey after xenon photocoagulation. II. Cellular responses in the late stage of repair (*Ishikawa*) 98

Eosinophilic granuloma of the orbit: Report of a case and some ultrastructural findings of histocytes in the lesion (*Momoeda et al.*) 119

Oligodendrocyte and myelinated nerve fibers in the human retina: An electron microscopic study (*Kohno et al.*) 125

Effects of oxygen on developing vessels in the kitten retina (*Oshima et al.*) 135

Responses of Müller cells of rabbit retina in experimental siderosis (*Yoo*) 149

Electron microscopic study of subsurface cisterns in the retinal ganglion cells (*Nomura*) 186

Encircling silastic 3 mm band without evacuation of subretinal fluid in recurrent retinal detachment (*Mortada*) 221

Aiming at prevention of complications of scleral buckling by silastic rod or band without evacuation of subretinal fluid (*Mortada*) 228

Ultrastructure of vessels in haemorrhagic area of human retina (*Yoshimoto*) 233

Influence of defective circulation of the posterior ciliary arteries on acid hydrolases in the choroid and the retina (*Hara et al.*) 353

Ultrastructural aspects of hyperpermeability of the retinal blood vessels of spontaneously hypertensive rats (*Yoshimoto et al.*) 497

Vision

Stereoprojector examination of binocular vision (*Pigassou-Albouy*) 444
